

NCOP Exam Busters session with Positively Mad

On Thursday 5th October our NCOP students from years 10-13 were lucky enough to get a free session with a company well known for inspiring learning – Positively Mad. Some of the students were reluctant at first – not another study skills talk! However, presenter Shenaz was full of energy, funny anecdotes and was truly engaging.

The two hour session reinforced skills about studying but also gave the students some fresh ideas. The students were fully engaged throughout and thoroughly enjoyed the session.
