

YEAR 11 BOOSTER SESSION TIMETABLE—SUMMER 2016

The final day of the normal timetable is Wednesday June 8th. You will then be on study leave for the remainder of the examination season, lasting until July 1st. Following study leave you must start voluntary work or work experience until the official school-ending date of July 15th.

After June 8th you must attend 'booster sessions' for the subjects you are still to be examined in. Details of these study sessions are on the calendar below.

Attendance at booster sessions is compulsory for students studying that subject. Booster sessions will take place in your normal subject classroom.
