

Guide to Apprenticeships in Sutton

The London Borough of [Sutton Apprenticeship Hub](#) was launched in November. The Hub is aimed at all local teachers, students, parents and businesses and is run by a team of apprentices, who are very keen to inspire other young people to get involved and get ahead.

It is designed to help people aged 16+, who have left or are due to leave secondary education, make the right decisions about their next steps.

The hub can also support parents, teachers and employers, helping everyone to understand the benefits of apprenticeships in Sutton and its surrounding areas.

The team have created lots of useful information and tools on the website, and have lots more to come in the months ahead.

Features so far include;

- Success stories from local apprentices (videos and written)
- Live job board
- Interactive career pathways to show students their options
- Top five myths of apprenticeships
- FAQs
- Blogs
