

Carshalton Boys A level

Economics

The aim of Economics is to:

- develop an interest and enthusiasm for economics and its contribution to the wider economic and social environment;
- develop an understanding of a range of concepts and acquire an ability to use these concepts in a variety of different contexts;
- develop an enquiring, critical and thoughtful 'economist's mind';
- practise skills, qualities and attitudes which will equip them for the challenges, opportunities and responsibilities of adult and working life;
- develop an understanding of current economic issues, problems and institutions that affect everyday life;
- apply economic concepts and theories in a range of contexts and appreciate their value and limitations in explaining real world phenomena;
- analyse, explain and evaluate the strengths and weaknesses of the market economy and the role of government within it.

Economics will be a co-taught subject in the Sixth Form. The AS course can be completed in one year with two examinations at the end of Year 12. The A Level can be taken over two years with three examinations at the end of Year 13.

AS outline

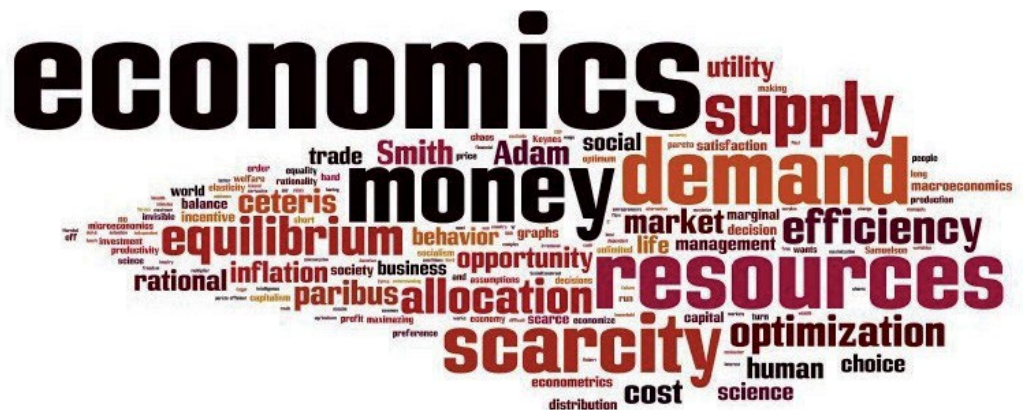

At AS, this specification will enable candidates to develop an understanding of and an insight into,

- micro- and macroeconomics:
- the operation of markets and market failure
- the national economy in a global context

A level outline

At A level the specification will enable candidates to acquire a deeper understanding of the AS content of micro- and macroeconomics with the addition of the following topics not included at AS Level:

- Behaviour Economics
- Financial Markets
- Labour Markets
- Economic Development

The course requirements:

Grade 6 or higher in GCSE English Language and Mathematics
